TABLE 4. Description of additional fees	
A	Additional fee for assessment of residue levels of plant protection products by the National Food Agency. Applicable for plant protection products used on edible crops or fodder.
B	1. Additional fee for assessment of efficacy, phytotoxicity and selectivity by the Swedish Board of Agriculture. Applicable for all applications for product authorisation where Sweden is the examining member state or concerned member state (cMS) and all applications for amendment of use or use conditions. 2. Additional fee for assessment of comparability of agricultural practices by the Swedish Board of Agriculture. Applicable for all application for mutual recognition of product authorisation.
C	Additional fee for assessment of each additional active substance. Applicable for all plant protection products containing more than one active substance.
D	Additional fee for assessment of equivalence of active substance (different source, manufacturing process and/or manufacturing location than the one that was assessed in connection to the approval of the active substance).
E	Additional fee for evaluation of new, or partly new, dossier on active substance or micro-organism. Applicable when the applicant does not have the right to use the dossier that was evaluated in connection to the approval of the active substance.
F	Additional fee for assessment of each new active organism. Applicable for plant protection products containing active organisms that are not already included in an authorised pesticide.
Additional fee for amendment of on-going application. Applicable when there is a need for a new assessment according to the uniform principles (e.g. addition of crop, change of dose or time for application). SLV: Additional fee for assessment of residue levels of plant protection products by the National Food Agency. Applicable for plant protection products used on edible crops or fodder. SJV: Additional fee for assessment of efficacy, phytotoxicity and selectivity by the Swedish Board of Agriculture. Applicable for all applications.
